Dual Power Supply

The device is powered by solar energy and battery. When it is raining, the battery keeps working. When it is sunny, the solar panel charges the battery, thus achieving the cycle power supply and working continuously throughout the year.

M TEAM

**Continuously
work**

Standby time 365 days

USB Charging Port

Support 4pcs 18650 batteries

Solar panel powered

IP67 Water - proof Level

It is made of aluminum alloy and engineering plastic material, there are waterproof and anti-rust coating on the surface, so that it has good heat dissipation and effectively prevents dust from penetrating and raining.
